

TRACK & FIELD TIMING CLINIC

A free clinic is being offered by timers from VCYTC and SCYTFC

When/Where

Feb 18 2017 - 8am-12pm @ Royal High School (Simi Valley)

Clinic Overview

This clinic will be beneficial to anyone involved in timing track meets at the youth and high school level - regardless of skill level. We plan to have multiple timing setups in order to break into groups based on experience, so for anyone new it will be a great hands overview on the setup and timing of a meet as well as a great refresher and chance to share tips if you are a veteran timer.

The clinic will deal specifically with FinishLynx equipment and Hy-Tek Meet Manager software.

Special applications written by Leigh Stivers (Camarillo Comsos) and provided free of charge which assist with seeding and judging mixed events will be demonstrated as well (<http://www.vcytc.org/meet-files/>).

You're invited to bring your timing equipment for testing and setup tutorial.

How do I sign up?

This is a free clinic, but we ask that you RSVP and let us know how many with your group would like to attend and your skill level. This will allow us to better prepare and accommodate and also to notify you should there be a change in the date, time or location. Please RSVP by emailing Erin Sap @ erinsap@gmail.com

Should you have any questions beforehand please contact any of the following:

Leigh Steivers
(Camarillo Cosmos/VCYTC)
